**High Impact Experiential Learning:** The facilitator introduces topics through lecture, discussion and activities. Individual and small group learning exercises reinforce concepts so they are internalized, becoming part of who you are, how you lead, and how you engage with the world.

#### ***Make this investment in yourself!***

Join us for **LifeStream Basic** with Ross Quinn, an author, leadership trainer, and success coach. For 25 years he has delivered powerful results for 150,000 people around the world, coaching executives in organizations such as Disney, Boise Cascade and State Farm, while authoring two books including "Speaking of Success" with Steven Covey & Jack Canfield.

**Tuition is only \$395 — *What are your results worth?***

[www.LifeStreamRochester.com](http://www.LifeStreamRochester.com) or 585.329.2640

*Payment plans and scholarships are available*

# LIFESTREAM ROCHESTER

## *What LifeStream participants say about the impact LifeStream has had in their lives:*

“I greatly value LifeStream’s meaningful contribution to my success in achieving \$1 billion in sales since 2003 and being named to a Vice President position within my Fortune 500 company. The LifeStream Rochester Leadership Training Program is a world class, life-changing learning experience. In my 20+ years, I have never participated in such a valuable professional development leadership program.”

– *Paul Randall Camp, Vice President, at one of the world's leading Engineering & Construction companies*

“As a senior high tech executive, I have attended many personal and professional development programs. LifeStream, by far, delivers the most impact. With powerful content delivered through a phenomenal facilitator using lectures, experiential exercises, and tools to sustain and enhance what has been learned, LifeStream enables participants to re-discover their gifts and their power, and how to bring these into the world. I highly recommend LifeStream to anyone seeking sustainable change to live their lives to the fullest.”

– *Michael J. Hunt, Executive VP, Silicon Valley High Tech*

“Very useful for my Professional Development - I gained new knowledge and practices to significantly improve my ability to be effective while leading or participating on teams.”

– *Peggy Stritch, Sr. Manager, Workplace R&D*

“A seminar for people who are ready to do something about their lives instead of just talking about doing something about their lives. I highly recommend LifeStream!”

– *Seth Harris President, Stingray Studios, Inc.*

“I have participated in seminars conducted by Anthony Robbins, Steven Covey, Denis Waitley, Brian Tracy and others. LifeStream’s process of ‘learning through doing’ was much more powerful than ‘learning through sitting and listening’. The tools I have received from the BASIC and ADVANCED IPI seminars are used every day and have made an impact on myself, my family and my co-workers.”

– *Jim Marous, Marketing Executive*

“I wish that I had this opportunity when I was a teen—my life would have been great from then, instead of starting at age 57!”

– *Sally McPike, Real Estate Broker*

“This experience provides insight and tools for people to be inspired to be their best ‘self’... no matter what circumstances they are facing! We cannot be reminded enough that every day is a new day filled with possibilities and potential!! Thank you for the renewed energy.”

– *Danny Dehm, Principal, Victor Elementary*

“Thanks to the seminar, I now possess the tools to help my employees maximize their potential.”

– *Thomas J. Grote, Director of Operations Donatos Pizza, Inc.*

“A life requirement! Ideal for those facing challenges *AND* for those looking to move from good to GREAT.”

– *Barb Glassman, President, G-FORCE Collaborations*

“After Basic, I am much more centered—I can’t wait to get out into the world to put it all into practice.”

– *Kayla Dewey (19), Student, Claremont-McKenna College*

“My life looked pretty good but felt kind of grey. Through LifeStream I discovered that there was so much more I could do to produce results *and* enjoy life. My personal and professional relationships have more depth, I am more centered and balanced, my productivity and effectiveness are way up, and I am having a more powerful impact on those around me and in the world.”

– *Dave Vanable, Sales/Marketing/Business Executive*
